Instructor Comments Report for: Benjamin Patrick McClelland

Q1 What did you value most about your instructor's teaching methods?

- His creative examples to make us understand the readings
- 2 He was great about bringing in outside examples into class as well as his own experience with material. He was also great about applying our points to the course material.
- His ability to explain the material well and concisely, as well as the way that he focused discussion sections and managed to make them worthwhile.
- 4 Benjamin clearly cared about the material and understood it well enough to explain it in engaging terms. He was especially helpful because he would admit finding the concepts challenging himself sometimes, which made us feel more comfortable asking questions during discussion section.
- Going through readings was very helpful whenever we did it, but sometimes I came away from the readings understanding the theory and more wanting a discussion that really applied the theories to real cases.
- 6 He made the class feel very comfortable and made the readings very understandable.
- 7 Very relaxed. He seemed like he really enjoyed leading discussion section. He always kept things interesting

Q2 What improvements in the instructor's teaching would you recommend?

- Not many, he's a great lecturer and a good discussion leader
- 3 Nothing comes to mind. He's a great teacher!
- 4 Moving a bit faster through material. He was great at going in depth but could sometimes linger too much.
- 6 No improvements are necessary.
- 7 Review the readings more
